

# DR. RACHEL NAOMI REMEN

Open to the Full Potential of Healing  
Reconnection with The

as an internal compass

Our ability to heal far exceeds our capacity to cure

Being a Doctor is a World View - Trained to see others as Broken

Now I see People as Whole

In the beginning, is holy darkness  
Then, there was an accident...  
The collective task is to Restore Wholeness, and to heal The World Around us

Become More  
What if we are exactly what is needed to heal?

"So many people... I saw you & realized how important - what was happening - So I grabbed on to you and held on to Life"

"I experienced radical surgery that saved my life as a single young woman - humiliated me"

I became depressed, unnoticed by my caregivers one 'unprofessional' one gave me my life back - she healed with her human wholeness"

Our Wounds make us gentle with others - helps us recognize the Loneliness, & being there for them in dark times

Put a little water on the cup every day - and maybe something would happen

Power of a simple GESTURE  
Inviting whole people into relationship - invites them into mystery

LIFE IS EVERYWHERE only needing you to care for it... day by day

Write Your Own Statement of Purpose

may hands, heart, relationship be a mother's hands & heart and a relationship of value

Our Work is a special kind of SERVICE and SERVICE is a special kind of LOVE

## FULFILLING OUR SHARED SACRED TRUST
